

NEWS FROM THE BOARD OF TRUSTEES

Did you know that we are trying to replace the old broken metal chairs in the Fellowship Hall with new molded plastic chairs??

The Board of Trustees has purchased 28 new chairs, and through donations from the congregation we have purchased 11 more. We are asking Family's, Sunday School Classes, Individuals, or Groups to help buy more chairs to reach our goal of 125 new chairs.

The cost of one chair is \$20.00, or they come in a box of four for \$80.00. The Trustees are asking that the donations be made through the offering each Sunday and marked "new chairs".

We still need 86 more chairs to replace all the broken metal ones. The Trustees will purchase the chairs as the money comes in and remove the metal ones for repair. These repaired metal chairs will then be available to church members on loan when you have a birthday party, graduation, Family Reunion etc.

The Trustees thank you in advance for your generosity and look forward to seeing everyone in a comfortable new chair in the near future!!

The Board of Trustees has also hired Vector Security Inc. to install a security system for the church building. The new system will be installed on March 18, 2010. The Trustees intend to have a "training day" some time after the installation for church members who currently have a key or need to have a key to the church. Each member with a key will be assigned a 4 digit pass code that will enable them to disarm the system when they enter. The date for the training day has not been determined yet, as I have to be trained first by Vector on how to use the system and assign pass codes. The training day will be announced in the church bulletin, in the Flame, from the pulpit and on the screen in the Sanctuary, so be on the lookout for this information in the near future!!

**Alan Schubert,
Trustee Chairman**
